TECHNOLOGY

SSB 480 W  
• SSE 480 W

SSB 400 W  
• SSE 400 W

• SSE 350

• Shown

**Cylindrical brush**

**ALTO SSB 480 W**

- Flexible tank
- Cleaning agent added with dosing pump
- Cylindrical brush
- Compact design
- Battery-powered

**ALTO SSE 480 W**

- Flexible tank
- Cleaning agent added with dosing pump
- Cylindrical brush
- Quick tool connection
- Mains powered

**ALTO SSB 400 W**

- Flexible tank
- Cleaning agent added with dosing pump
- Cylindrical brush
- Cleans and vacuums forward and backwards
- Battery-powered

**ALTO SSE 400 W**

- Flexible tank
- Cleaning agent added with dosing pump
- Cylindrical brush
- Cleans and vacuums forward and backwards
- Mains powered

**Disk brush**

**ALTO SSE 350**

- 2-disk brush system
- Quick tool connection
- Compact design
- Cleans and vacuums forward and backwards
- Mains powered

## CLARKE TECHNOLOGY

- ENCORE L2426  
ENCORE S2426

- ENCORE L20  
ENCORE S20  
ENCORE S20 E

• Shown

### Battery-powered

#### ALTO ENCORE L2426

- Rugged tanks resist corrosion and cracking
- New patented parabolic swing and break-away squeegee
- Variable brush pressure
- Gimbal mounting allows brushes to float over uneven floors

#### ALTO ENCORE S2426

- Rugged tanks resist corrosion and cracking
- No tool squeegee blade change and adjusting
- Unique bristle skirting
- Tanks emptying easily through large drainage hoses

#### ALTO ENCORE L20

- Parabolic swing and break-away squeegee
- No tool squeegee blade change and adjusting
- Solution and brush off in neutral
- Powerful transaxle drive system eliminates chains and belts

#### ALTO ENCORE S20

- Parabolic swing and break-away squeegee
- No tool squeegee blade change and adjusting
- Unique bristle skirting
- Tanks emptying easily through large drainage hoses

### Electrically-powered

#### ALTO ENCORE S20 E

- Parabolic swing and break-away squeegee
- No tool squeegee blade change and adjusting
- Unique bristle skirting
- Tanks emptying easily through large drainage hoses
