

## “BETONOL 100”

### Concrete dissolving agent with corrosion protection effect

#### Properties

Special liquid product with an acid reaction and a brownish, clear, transparent appearance. The product has a specifically sour scent. The well matched composition of agents ensures the optimum removal of wet concrete and concrete that set for some time and largely protects materials against corrosion.

#### Application

The product is designed for cleaning concrete trucks, concrete mixers, concrete guns, concrete containers, etc.

#### Dosage

Apply undiluted on the soiled surfaces by scrubbing or brushing. Allow to react and rinse off with hard water jet. If necessary, repeat treatment.

#### Specifications

pH value conc. potentiometric	0.2
pH value 1:50 potentiometric	1.1
Density at 20 °C/68 °F	1.08 kg/l

#### Ingredients

Inhibitors, hydrochloric acid, auxiliary agents

#### Safety

The product reacts corrosive and irritates the respiratory system.

#### Precautions

Keep out of the reach of children! If the product gets in contact with the eyes, wash with plenty of water and seek medical attention. Please observe your local governmental safety regulations.

#### Remarks

Removes concrete that has set for max. 6 - 8 hours.
