

“GP” Silent Type Diesel Generator DG12000XSE-3

1

Strong Power

All generator sets are equipped with four-stroke engines.

Low Noise Running

High effective combustion system ensures complete combustion, Besides, a large silencer dampens exhaust noise and engine sounds which are contained by a double-wall structure and absorbed by a liner.

Digital Control Panel

All the control units of the generator sets are on one panel, a monitor of the panel will display the real-time working data of the generator set such as its output voltage and current etc. Besides, the running trouble of the generator will also be displayed on the panel.

Low Oil Alarm System

Before the oil level drops to the limited level, the generator set will stop automatically. The whole set can be restarted only if the oil is refilled.

Application of New AVR

The AVR (Automatic Voltage Regulator) not only can smooth the output but also can provide reasonable protection against the overload of the whole set, thus avoid damage to the set.

Item	Unit	Description
Model		DG12000XSE-3
Rated Frequency	Hz	50
Rated Output	kVA	10
Max. Output	kVA	11.3
Phase No.		Three-phase
Voltage	V	230/400
Rated Rotation Speed	rpm	3000
Engine		16.5HP,4-stroke, Two-cylinders
Alternator		Brush type. AVR
Starting System		Electric Starter
Battery	Ah	36
Fuel Tank Capacity	L	25
Noise Level (7m)	dB(A)	72
Cooling System		Water cooled
Packing Size (LxWxH)	mm	1300*750*1120
Weight	kg	250
