

Submersible Dewatering Pump

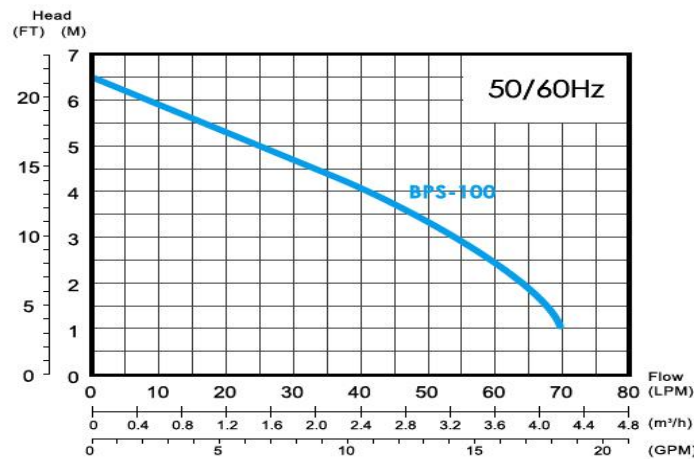

BPS

Features:

- Non-corrosive super tough glass fiber reinforced thermoplastic motor housing, pump casing and impeller.
- Built-in thermal overload protector.
- Light-weight and compacted design for portable residential usages.
- High efficiency for cost effective pumping.
- BPS-100 can pump at lowest residual water level at 3 mm.

Applications:

- Sump-pit, Garden spraying, Fountain, Waterfall, Toilet, Laundry, Car wash, Irrigation and Various portable usages.

Model	Power	Voltage	Discharge	Max. Head	Max. Flow
			Inch	M	LPM
BPS-100-110	1/6	110V / 50Hz	1"	6.0	70.0
BPS-100-220	1/6	220V / 50Hz	1"	6.0	70.0
