

## MG5

### **Economical generators for reliable job site power**

This economical, yet rugged portable generator series is designed to fit every job site and every budget. These units provide hours of reliable job site power and performance. Ideally suited for construction, industrial, commercial, domestic and farm applications.

- A fully wrapped frame with heavy duty steel bars protects the generator under rugged job site conditions and superior performance shock mounts minimize vibration for longer machine life
- Maintenance-free wheel kit with non-inflatable tires and foldable handles make it easy to move around on site
- All units feature a Wacker Neuson 4-stroke gasoline engine for reliable power
- Unique diversion trench fuel tank design for increased safety and user-friendliness
- Extra durable fuel tank made from strengthened steel

**Standard Package includes wheel kit, operator's manual and parts book.**

MG5 Item No. 0630143 (English version), 0630137 (Bilingual version)

## Technical specifications

### Dimensions

L x W x H	683 × 540 × 552 mm
Net weight (without fuel)	82 kg

### Operating data

Operating weight (fuel tank half full)	94 kg
Output performance (max.)	5.5 kW
Output performance (rated)	5 kW
Rated voltage single phase	220 V

### Electrical system

Frequency	50 Hz
-----------	-------

### Engine / Motor

Engine / Motor	air-cooled, 4-stroke, single cylinder with recoil starter
Engine / Motor manufacturer	WN13 Wacker Neuson
Displacement	389 cm <sup>3</sup>
Operating performance	7.5 kW
