

Intelligent Controller

Model: MPEP 90kW

Suitable application range

Type of motor:

Three phase capacitance motor

Motor Power: 90 Kw

Voltage: 380V ~ 415 V/AC

Frequency: 50Hz, 60Hz

Product Functions

- * Protect against short circuit
- * Protect against over current
- * Protect against lightning strike

Technical data

- *Action time of short circuit: <0.1sec.
- *Action time of over current: 5 sec.
- *Recovery time of over current: 30 min.

Technical characters

- * Manual/Auto control
- * Pulse electrode probe check
- * Voltage current display

Installation environment Index

- * Grade of protection: IP55
- * Environment temperature: -25°C~55°C
- * Environment humidity: (20~90) %RH
